The results of the consultation will inform the council's decision as to which areas will be included in the Local Plan. The council will not be taking comments on policies and sites not included as part of this consultation.

There will be a briefing ahead of the start of the consultation.

The Town Clerk also noted that an Alton Neighbourhood Plan Monitoring Group meeting would be held in August to consider progress with the existing Action Plan points.

56.4.1 Application 23172/011 Change of Use from B1 to Residential C3, 49 High Street, Alton GU34 1AW. East Hampshire District Council have advised that whilst the Town Council lodged an objection to this application it was granted planning permission.

57 To consider any matters or reports pertaining to Highways/ Parking/Public Transport, Housing and Street naming.

57.1 Highways

As part of Operation Resilience, Hampshire County Council's they have advised of the followings works to be carried out:

1. Carriageway resurfacing works on Newman Lane along its entire length from its junction with Mill Lane.

The resurfacing works are programmed to start 22nd July and are expected to last for 5 nights. During which time, the road will be closed to vehicular traffic from approximately 19:00 to 05:00hrs. The road will be open during the day.

2. Carriageway Resurfacing works on Church Street, Alton between the junctions of Normandy Street to outside the Quakers Meeting House.

The work is programmed for 29th July 2019 and is estimated to take 5 nights to complete. In order to undertake the works safely it will be necessary to close the road. Due to the impact the closure will have on traffic and to minimise disruption, it is necessary to carry out this work at night between the hours of 20:00 to 06:00hrs.

Information signs advising road users of the works will be erected prior to the start of works. A letter will be sent to local residents and businesses and an email will be sent to Alton Town Council and East Hants District Council to advise them accordingly.

3. Councillor Crossley commented that there have been increasing problems at the entrance to the Barley Fields development with cars parking for school pick up and drop off. It is understood that Eggars are promoting the Barley Fields car park as an overflow for the Park and Stride at Anstey Park but is actually being used by many parent instead of the Park and Stride, with cars parking all the way along the main spine road to the development as the car park has only a limited number of spaces. The Clerk advised that the Residents Association write to Eggars School to ensure that next term the Park and Stride at Anstey Park is utilised properly; the main car park has ample parking and a dedicated path has been laid to link up the park to the main footway. If the situation cannot be resolved, residents would have to consider asking HCC to make the main spine road on the Barley Fields estate a no parking zone with double yellow lines, if the school parking is compromising safety of road users.

57.2 Public Transport:

Councillor Titterington noted that the Wooteys and Eastbrooke Community Bus has carried out 80 passenger trips during June.

57.3 Station Forecourt Project:

There is no further update on this project since it was last reported to the Committee in January but it remains the opinion of Alton Town Council that EHDC were cognisant of the requirement that this project should proceed.

57.4 Street naming:

Crest Nicolson have written to request suggestions for street naming for the new Treloar Hospital Development. In consulting with Jane Hurst, she has producing a list of names of tenant farmers who managed the site from 1722 onwards. The site itself was owned by the Knight Family of Chawton. It was therefore suggested that the name "Knight" be considered for the main spine road with the list of tenant farmers being passed to Crest as suggestions for the cul-de-sac roads.

**PLANNING APPLICATIONS TO BE CONSIDERED BY THE
PLANNING & TRANSPORT COMMITTEE
WEDNESDAY 17th JULY 2019**

PLANNING APPLICATIONS

Notification of Full Planning application

1. 35211/003 Site Address: Nationwide Building Society, 29 High Street, Alton, GU34 1BS
Proposal: Preparation and decoration of existing shopfront and replacement of existing ATM and surround\
NO OBJECTION

2. 57035 Site Address: Land at Montecchio Way and, Mill Lane, Alton
Proposal: Development of a 4.327 sqm retail unit with associated car parking, landscaping and infrastructure
OBJECTION.
Members do not have any concern over the principle of development and indeed the potential positive impact of the economic opportunity offered by way of additional employment for local people, however, it is lamentable that this application is in an out of town location, drawing people away from shopping in the town centre. As such, this proposal can only be sustainable if it addresses a number of concerns around accessibility. Additionally, the out of town location provides an opportunity to make a positive environmental impact given the position of the site.
Accessibility. As an out of town site the application lacks adequate parking provision. If the site cannot support more parking then the Town Council would strongly urge EHDC to insist upon a significant contribution to community transport to help mitigate the impact of this and provide a more environmentally friendly way of accessing the site. In addition, whilst the applicant states there is a pedestrian access to Holybourne not far from the site entrance, this is an unlit muddy path far from the main estates. It is absolutely vital that this application makes provision for a formal pedestrian and cycle path (already informally made by local residents) from the site entrance to Montecchio Way and round to the bus stop by the traffic lights before Eggars School. Without this there is a strong reliance on the private car, demand for which may not be met with the under provision of parking on site. Additionally there appeared to be no information provided as to the location and quantity of cycle parking within the proposals.
Environmental Impact. As a south facing site this application should make efforts to utilise solar energy where possible and the installation of PV panels would assist. Taken with the measures recommended above for accessibility, helping people access the site on foot, by bicycle and by bus will all help reduce the carbon impact of the development. We feel that all of the suggestions made are viable and deliverable and would overcome the objections raised.

NO OBJECTION

Notification for Prior Approval for a Proposed Change of Use of a building from Office Use (Class B1(a) to a Dwelling house (Class C3) Town and Country Planning (General Permitted Development) Order 2015

1. 38028/005 Site Address: The Old Bakery, 4 Lenten Street, Alton

Proposal: Notification for Prior Approval for a Proposed Change of Use of a building from Office Use (Class B1(a) to a Dwelling house (Class C3) **OBJECTION**

Members would like the case officer to confirm that this change of use is within that allowed by the General Permitted Development Order. Whilst it is regrettable that no parking has been provided for the proposed residential dwelling, the main concern is that there is no provision made for waste storage and removal which is therefore not compliant with the ANP. This gives grounds for concern over whether this change of use should be carried out as permitted development.

LICENCING

1. Tables & Chairs Pavement Licence
Coffee Cherry, 3D Normandy Street, Alton
Area to be licensed: Shop front with 1 table and 2 chairs – 1.5 sqm
Hours: Mon-Fri 0800-1800 hrs
Saturday 0900-1800 hrs
Sunday 0900-1700 hrs
OBJECTION. Whilst Members find the endeavours of the applicant commendable in business terms, having now been out on site they can see that this proposal may be problematic given the width of the pavement and the nearby road sign which would mean that customers may block the path with their chairs or prevent free passage of scooters and pushchair. As a result members regretfully, lodge an objection to this application.
