

Alton Neighbourhood Plan - Green Infrastructure Network

June 2023

Existing Green and Blue Infrastructre Network :

- | | | | |
|---|--|---|---|
|  | Neighbourhood Plan Area |  | Existing Green Infrastructure with biodiversity value |
|  | Existing Blue Infrastructure with biodiversity value |  | Open Amenity Space |
|  | Sites of Importance for Nature Conservation |  | Road Verges of Ecological Importance |
|  | Priority Habitats | | |

Green Infrastructre Network Opportunities :

National Habitat Network :

- | | |
|---|-----------------------------|
|  | Network Expansion Zone |
|  | Network Enhancement Zones 1 |
|  | Network Enhancement Zones 2 |
|  | Restorable Habitat |

Natural Flood Management:

- | | |
|---|--|
|  | Additional Floodplain Woodland |
|  | Additional Riparian Woodland |
|  | Enhanced Floodplain Reconnection |
|  | Runoff attenuation features to reduce 1/30 annual probability flows |
|  | Runoff attenuation features to reduce 1/100 annual probability flows |
